Chief, Records Management Staff

Comments on Proposed [ ] Manual for Security of  
Information and Material

REFERENCE: Acting Chief, Records Management Staff memorandum of 24 July 1958,  
same subject

1. On the basis of the discussion between [ ]  
of this Staff and you and [ ] I wish to withdraw our  
recommendation pertaining to the logging of all Secret and  
Confidential information or material, as prescribed on page  
45, paragraph b(1) of the proposed handbook. I understand  
that literal interpretation of Executive Order 105.01 precludes  
your acceptance of our recommendation that classified materials  
be logged on a selective basis as determined by Operating Officials.  
However, I also understand that you will reconsider our recommen-  
dation if DD/I and DD/P coordination of the proposed manual produces  
recommendations to modify the logging requirement.
